- N.B. The road into the game reserve is a dirt road with a bumpy ride. It is therefore recommended that you not take the smallest size cars for rentals, a low end SUV with normal 2-wheel drive but better clearance to the ground is a cost-effective alternative; also good for game viewing tours. An example would be an Intermediate SUV such as Hyundai IX35, Toyota RAV, or similar. Insurance against window screen and tire damages etc. recommended.
